

EducART 3D™

Teacher Resource

EducART 3D is a free entry level mobile app that can easily be downloaded and used by students. It uses simple “Markers” to trigger augmented reality experiences that students can interact and engage with to gain an in-depth understanding of complex concepts.

Benifits of Immersive Learning in education

Using EducART 3D:

Step 1

Download the free EducART 3D app.

Step 2

Download and share the target “Markers” available from the EducART 3D app or you can visit educart.appearition.com and download the full document or individual images from the resource library.

Step 3

Open the EducART 3D App and use it to scan the “Marker”. Click on the icons to further explore each experience. Target “Markers” are included on the following pages for your reference and use.

In addition to the entry level EducART 3D app, Appearition can provide a range of tools to enable your students to Explore other content and even Create their own learning experiences. Plus you also have the option to introduce an assessment module and virtual collaboration.

For more information and to trial EducART Pro™ for free, visit educart.appearition.com
